Maintenance

Regularly vacuum your furniture using the upholstery nozzle to remove dust and prevent fluff and pilling. Occasionally, straighten the fabric with your hands. To smooth out wrinkles, use a steamer. If liquids spill, immediately blot the area with an absorbent napkin or cloth, dabbing gently towards the center of the stain. Avoid using concentrated detergents, bleach, ammonia, optical brighteners, or soaps meant for hard surfaces. Spot cleaning is not recommended as it can damage the fabric and cause color loss. For wool fabrics, most stains can be removed with lukewarm water and a clean, lint-free cloth. If needed, add a small amount of neutral detergent. Do not rub the material vigorously, as this can cause color loss and fabric damage. Using a hairdryer may help to prevent water marks. If a stain persists, consult a professional cleaner.
